Remarks : Please refer to Appendix for photographs of samples as received

Terms&Conditions

1. The results reported herein have been performed in accordance with the terms of accreditation under the Singapore Accreditation Council
2. The report is prepared on the basis of the required experiments and the particular materials presented for testing to RAK Materials Consultants Pte Ltd (RAK). RAK assumes no liability for differences in the quality or other features of presented products under circumstances that are not controlled by RAK. This report is not a recommendation for the product or material being tested or endorsed. The test result(s) and conclusion(s) in this report relate to the sample(s) tested as described herein.
3. RAK agrees to use a reasonable degree of diligence in the way tests, inspections or services are performed, but no warranties are given and none can be implied directly or indirectly in relation to the test results, services or facilities of RAK. RAK shall not be responsible for any unique, consequential or collateral harm.
4. The report shall not be reproduced except in full and unless approval in writing has been given by RAK.
5. No other third party can receive the Report through RAK unless it is stipulated in the RAK Request Form or has obtained written instructions from the authority to authorize RAK to do so.
6. The Report shall not be used in advertising without RAK's written permission.
